Northwest Nassau Natural Gas Integrity Project

Roslyn, NY | April 2023

Dear Neighbor,

We would like to inform you of upcoming work in your neighborhood. Energy plays a critical role in our day-to-day lives and helps ensure the well-being of our community. That's why we're investing in infrastructure upgrades in your area.

Project details:

This project will install a new flow control station on Powerhouse Road as part of the Northwest Nassau Integrity Project. Upon completion, this station will help to regulate the pressure in our infrastructure. This work **will not** interrupt your service.

What to expect during construction:

- **Excavation** and work inside the flow control station.
- **Traffic pattern changes.** Street traffic will be open during construction, and a flagger will be onsite during work hours. Please be aware of construction traffic signs and cones.
- **Street plates.** The project site will be secured and plated during non-work hours.
- **No interruption to service** to our customers.
- **Restoration** of disturbed areas.
- **Direct contact with our Outreach Team.** If you have questions or concerns, please call or email our team
